INDEX, 1945

Accessions to the Library, Recent, 56, 112, 168, 278, 333, 389, 502, 557, 625, 686
Address of the retiring President, Arthur F. Chace, 123
Air-Borne infection, the rationale and means of disinfection of air, 393
Alcoholism, Physician and the problem of, Howard W. Haggard, 451
Alloxan diabetes, its production and mechanism, Martin G. Goldner, 44
Anderson, Donald G., Clinical observations on the treatment of various infections with penicillin, 581
Annan, Gertrude L., Medical libraries and medical history, 163
Annual meeting of the Academy, January 4, 1945
  Address of the retiring President, Arthur F. Chace, 123
  Diverse clinical picture of coronary heart disease, Robert L. Levy, 171
  Scientific humanism in this changing world, Presidential address, W. W. Herrick, 115
  Treatment of coronary disease, Charles C. Wolferth, 185
Arthritis, Penicillin and sulfonamides in the treatment of osteomyelitis and pyogenic, J. Albert Key, 87

Benjamin, J. A., W. W. Scott and, Role of bilateral orchiectomy in the treatment of carcinoma of the prostate gland, 307
Biggs (Hermann M.) Memorial Lecture, Medical and public health importance of the insecticide DDT, Fred C. Bishopp, 561
Binger, Carl, Critique of psychotherapy in arterial hypertension, 610
Biological factors in human disease, Certain, George Draper, 599
Bishopp, Fred C., Medical and public health importance of the insecticide DDT, 561
Bubble formation in blood and tissues, Decompression sickness and, E. Newton Harvey, 505
Cardiac enlargement; its recognition and significance, Harry E. Ungerleider, 482
Carpenter (Wesley M.) Lecture, Influenza, methods of study and control, Thomas Francis, Jr., 337
Casals, J., Peter K. Olitsky and, Concepts of the immunology of certain virus infections, 356
Cecil, Russell L., Chemotherapy in acute upper respiratory infections, 263
Certain biological factors in human disease, George Draper, 599
Chace, Arthur F., Address of the retiring President, 123
Chemoprophylaxis of streptococcus disease, Hugh J. Morgan and Roy H. Turner, 37
Chemotherapeutic agents, Mode of action of, Rene J. Dubos, 27
Chemotherapy in acute upper respiratory infections, Russell L. Cecil, 263
  of gonorrhea, J. F. Mahoney and C. J. Van Slyke, 18
  of syphilis, Joseph Earle Moore, 3
Clinical observations on the treatment of various infections with penicillin, Donald G. Anderson, 581
Clinical Research Meeting (Abstracts)
  Clinical response in general paresis to treatment with penicillin, Edwin J. Doty, Herbert Koteen and Walsh McDermott, 434
  Comparison of several special preparations of protamine zinc insulin in the treatment of diabetes mellitus, Henry Dolger, 436
  Effect of bed rest and immobilization upon physiological and chemical functions in normal men, John Deitrick and Donald Whedon, 437
  Electrocardiographic changes during intravenous therapy of pneumonia, David D. Rutstein, K. Jefferson Thomson and Daniel K. Tolmach, 433
  Experimental study on the activity of penicillin administered orally in experimental streptococcus, pneumococcus and meningococcus infection of mice, R. J. Schnitzer, N. Ercoli, D. J.

Longacre and G. Soo-Hoo, 447
Functional pathology of experimental frostbite and the prevention of subsequent gangrene, Kurt Lange and Linn J. Boyd, 441
Improved technique for preparing a buried dermal graft in hernial repair, James V. Scola, 439
Heparin in the treatment of experimental human frost bite, Leo Loewe, Kurt Lange and Philip Rosenblatt, 442
Investigation of type specific meningococcic agglutinins in human serum: II—Immunologic response of proved cases of meningococci infection, Carolyn R. Falk and Emanuel Appelbaum, 445
Methods for achieving optimum penicillin blood levels including the use of enhancing agents such as para-aminohippuric acid, Leo Loewe, Philip Rosenblatt and Erna Alture-Werber, 444
Modified insulin technique in the treatment of ambulant psychiatric patients, Richard M. Brickner, 435
Morphological studies of Salmonella typhi murium and Salmonella enteridis in guinea pigs and mice, Alfred Angrist and Mollie Mollov, 446
Objective and clinical study of the normal, desquamated and atrophic tongues, Joseph R. DiPalma, 434
Oral administration of penicillin for treatment of gonococcal infections, Alfred Cohn, Borris A. Kornbluth and Isaak Grunstein, 446
Oral administration of penicillin in normal subjects and in patients with pneumococcus pneumonia, Walsh McDermott, Paul A. Bunn, Maria Benoit, Rebeckah Du Bois and Willetta Haynes, 443
Personality reaction to crime and disease, David Abrahamson, 435
Proteolytic activity of serum and plasma, L. R. Christensen and Colin M. Macleod, 447
Pulmonary suck and blow as a respiratory analeptic, interdependence of cardiac massage and suck-and-blow resuscitation, Jacob Reicher, 440
Rationale of sodium salts in the treatment of shock, Charles L. Fox, Jr., 438
Reaction of the peripheral circulation to cold in scleroderma, Raynaud's disease and thrombo-angiitis obliterans, H. R. Miller, J. Marrus and Beverly C. Smith, 441
Repository injection of penicillin in water-in-oil emulsion, effect on gonorrhea, A. Cohn, B. A. Kornbluth, J. Grunstein, K. J. Thomson and Jules Freund, 442
Significance of nutritional deficiency in diabetes, Morton S. Biskind and Herbert Schreier, 436
Streptomycin in the treatment of typhoid fever, Hobart A. Reimann, Alison H. Price and William F. Elias, 433
Subclinical trichinosis, a clinical and pathologic study, S. E. Gould, 444
Sudden deaths in infancy, Jacob Werne and Irene Garrow, 445
Therapeutic effect of radioactive iodine on adenocarcinoma of the thyroid with functioning metastases, S. M. Seidlin and L. D. Marinelli, 440
Use of radioactive sodium in studies of circulation in the extremities, Beverly C. Smith and Edith H. Quimby, 448
Coburn, Alvin C., Mass sulfadiazine prophylaxis of respiratory diseases in the U. S. Navy, 281
Combined use of anti-infectives and anticoagulants in the treatment of subacute bacterial endocarditis, Leo Loewe, 59
Commission on Acute Respiratory Diseases, John H. Dingle, Director, Present status of the etiology of primary atypical pneumonia, 235
Concepts of the immunology of certain virus infections, Peter K. Olitsky and J. Casals, 356
Coronary disease, Treatment of, Charles C. Wolferth, 185
heart disease, Diverse clinical picture of, Robert L. Levy, 171
Co Tui, Value of protein and its chemical components (amino acids) in surgical repair, 631
Critique of psychotherapy in arterial hypertension, Carl Binger, 610

Young, Anna Rand, 390

Decompression sickness and bubble formation in blood and tissues, E. Newton Harvey, 505
Diabetes, Alloxan, its production and management, Martin J. Goldner, 44
Differences in the nature of antibacterial action of the sulfonamides and penicillin and their relation to therapy, Colin M. MacLeod and Edna R. Stone, 375
Dingle, John H., Director, Commission on Acute Respiratory Diseases, Present status of the etiology of primary atypical pneumonia, 235
Disease, Certain biological factors in human, George Draper, 599
Reactions of tissues following infection and their place in an environmental conception of the nature of, Wiley D. Forbus, 127
Distant secondary circulatory and vasomotor reactions to accidental electric shock, George H. Hyslop, 302
Diverse clinical picture of coronary heart disease, Robert L. Levy, 171
Draper, George, Certain biological factors in human disease, 599
Dubos, Rene J., Mode of action of chemotherapeutic agents, 27

Earle, David P., Jr., James A. Shannon and, Recent advances in the treatment of malaria, 467
Electric shock, Distant secondary circulatory and vasomotor reactions to accidental, George H. Hyslop, 302
Endocarditis, Combined use of anti-infectives and anticoagulants in the treatment of subacute bacterial endocarditis, Leo Loewe, 59
Experiences with rheumatic fever in the Army, Irving S. Wright, 419

Factors determining the dosage of penicillin in the treatment of infections, Charles H. Rammelkamp and William M. M. Kirby, 656
Ferguson, L. Kraeer, Treatment of burns and war wounds, 127
Forbus, Wiley D., Reactions of tissues following infection and their place in an environmental conception of the nature of disease, 145
Francis, Thomas, Jr., Influenza, methods of study and control, 337

Friday Afternoon Lectures
Physician and the problem of alcoholism, Howard W. Haggard, 451
Recent advances in the treatment of malaria, James A. Shannon and David P. Earle, Jr., 467
Shock therapy of psychoses, evidence for and against damage, Nolan D. C. Lewis, 673

γ-Globulin in the prevention and attenuation of measles, Use of concentrated human serum, Charles A. Janeway, 202
Goldner, Martin G., Alloxan diabetes, its production and management, 44
Gomori, George, Histology of the normal and diseased pancreas, 99
Gonorrhea, chemotherapy of, J. F. Mahoney and C. J. Van Slyke, 18
Gould, S. E., Trichinosis, a major health problem in the United States, what shall be done about it? 616
Graduate Fortnight, 1944
Chemoprophylaxis of streptococcus disease, Hugh J. Morgan and Roy H. Turner, 37
Chemotherapy in acute upper respiratory infections, Russell L. Cecil, 263
